

Adult Discipleship Models

Introduction

Discipleship “Defined”

Discipleship is a Christ-Centered friendship where the goal of all involved is to help one another to reach spiritual maturity through character transformation and adopting a ministry lifestyle.

NOTE:

General Considerations for determining what model(s) to use

1. Discipleship and your church’s mission
2. Discipleship and your other key structures
3. What is the perceived difference in expertise and maturity between the people?
4. Considering the free time people have, should you prioritize fostering Christ-centered friendships between peers or one-on-one mentoring.
5. What resources does the larger church offer?

6. More than one model can be used in the same home group.
